TRAINING INFO (COMPACT)

php

```
    n == true)
    $study_at_iMiT = "the BEST investment!!\n";
    /* add some more code here */
    /* fix the code so there is no infinite loop */
}
?>
<>
}
```

Project : PHP1.0

Status: IMIT Accr-Recog-Ext

Trainer: Ing. Fabian Lewis M.Sc.

Paramaribo 1.28.19

PHP

PHP stands for "PHP: Hypertext Preprocessor" is a widely-used Open Source general-purpose scripting language that is especially suited for Web development and can be embedded into HTML. Its syntax draws upon C, Java, and Perl, and is easy to learn. The main goal of the language is to allow web developers to write dynamically generated web pages quickly, but you can do much more with PHP.

The course

Outline

During the sessions a student who has no prior knowledge of programming is exposed to the following:

- Understanding of data types,
- Operator usage,
- Control structures: the power they hold,
- Implicit and explicit data conversions,
- Use of functions,
- Code formatting and documenting.

Instructional Method and Requirements

During this training, participants can expect: **Instructor led classroom training**

- Classroom setting Lectures, with sufficient room to analyze real-world problems;
- Very hands-on in-class assignments;
- Take-home assignments;
- Supplementary research (hours) to be completed at the student's convenience.

There is one mid-course evaluation and the course is concluded by means of the final exam.

About the Instructor

Ing. Fabian Lewis M.Sc.

Fabian has a strong and diverse ICT background, having worked in Suriname, the Netherlands, Jamaica and Trinidad & Tobago, and in diverse industries. His work experience in the context of this training includes designing and optimizing of information systems. In recent projects Fabian has experience as a project technical lead, functional and technical designer, analyst and business developer, Relational Databases, Programming to name a few.

Accreditation/ Certification/ Recognition

These courses are an integral part of the IMIT education program accredited by the "National Orgaan voor Accreditatie" (NOVA). The successful completion of the course entitles non-IMIT students an IMIT (sub) certificate. IMIT is recognized by The Ministry of Education, Science and Culture (MINOWC).
