

INSTITUTE OF MANAGEMENT AND INFORMATION TECHNOLOGY

START DATE FEBRUARY 1, 2022

CLUSTER-COURSE

INCLUDED VMWARE VIRTUALIZATION WINDOWS SERVER 2016

Instructor: Ing. Urwin W. Staphorst MBA (MCT)

Trainer: Ing. Weerin Kalpoe

Assistant: Johan Kalpoe

Compact-Training Overview

This course is designed primarily for upcoming IT professionals with BasicIT knowledge of networking and network devices who are looking gain knowledge about the infrastructure layer of Networking and about the physical layer of Cabling and Wireless Networking.

<u>Learning Outcomes – Topics - Compact</u>

- Understanding the importance of optimally equipped wired and wireless network infrastructure;
- Gain knowledge about the LAN / WAN cabling infrastructures and related equipment and protocols;
- Learning the requirements "to plan, implement and maintain a basic Cabling and Wireless Network;
- Recognizing the various components in a LAN / WAN infrastructure;
- IPv4 Addressing- Deploy and configure Network Services (TCP/IP);
- Crimping and patching on jacks and panels;
- Plan, Install and configure DNS- NAT-VPN- SUBNETTING-ROUTING-REMOTE ACCESS;

INVESTMENT: ALL-IN USD 500 USD

Instructional Method and Requirements

During this training, participants can expect:

- Classroom setting Lectures, with sufficient room to analyze real-world problems;
- Very hands-on in-class assignments- Take-home (Online) assignments;
- TEAMS ONLINE assignments.

Required Training Materials

This course is based on the COMPTIA NETWORK + STUDY GUIDE IMIT PDF READERS, Cable and Wireless Networks. Mário Marques da Silva.-.

Technical Requirements * Laptop i5+ / 12+ GB memory / Free Disk space 500 GB + * Ext. Drive 500 GB +

Training Schedule Instructor-led Training

#	Date	Time	Topics - COMPACT
1		6-9 pm	Introduction: Network Protocols, Cable and Wireless Network
	Tuesday 1.2.22		Practical assignment: Installing VMWare –Cloning Server 2016 – Implement IPv4 Addressing
2	Friday 4.2.22	idem	Designing a Wired and Wireless network infrastructure logically basedon the theory. Practical assignment
3	Tuesday 8.2.22	idem	Plan and Implement NAT-DNS network based on logical design. Practical assignment: Implement Internet Access
4	Friday 4.2.22	idem	Continuation: Cabling and wireless advanced: configuration of wired and wireless network based on logical design. Practical assignment.
14	18.3.22	idem	End-course evaluation. Review of practical assignment and discussing requirements for practical demo and theoretical exam
15	OPEN		Final Exam/ Demo SUBJECT TO CHANGE

About the Instructor

Ing. Urwin W. Staphorst MBA – Microsoft Certified Trainer

Highly motivated and focused team player who can also work independent

and specialized in Microsoft Training, the development of new projects, with strong skills in system design and development. With a Bachelor degree in Information Technology and a Master of Business degree under his belt, he is also authorized by Microsoft as a Microsoft Certified Trainer (MCT) ever since 2000.

About the Trainer

Ing. Weerin Kalpoe

Weerin has experience as network designer, network architect, network implementer and troubleshooting. In-depth knowledge of TCP/IP and has worked with many different vendors.

About the Assistant

Johan Kalpoe

Johan has experience with advanced IT systems as well as Networking concepts on an Administrator level. Johan has worked in various sectors in IT and has build up a relative experience level..

Certificate

The board of directors of the Institute of Management and Information Technology certifies that

Student Name

Born on March 19, 1983 in Paramaribo Suriname has successfully completed the

N E T W O R K + Training Course

Course Grade: 8.1

Topics Covered: IPv4 Addressing, Networking Models, LAN Concepts, NAT, DNS ROUTING, SUBNETTING VPN, VMWARE, Installing Windows Server

Signed in Paramaribo, Suriname on July 9, 2019

Chairman of the examining committee Examiner

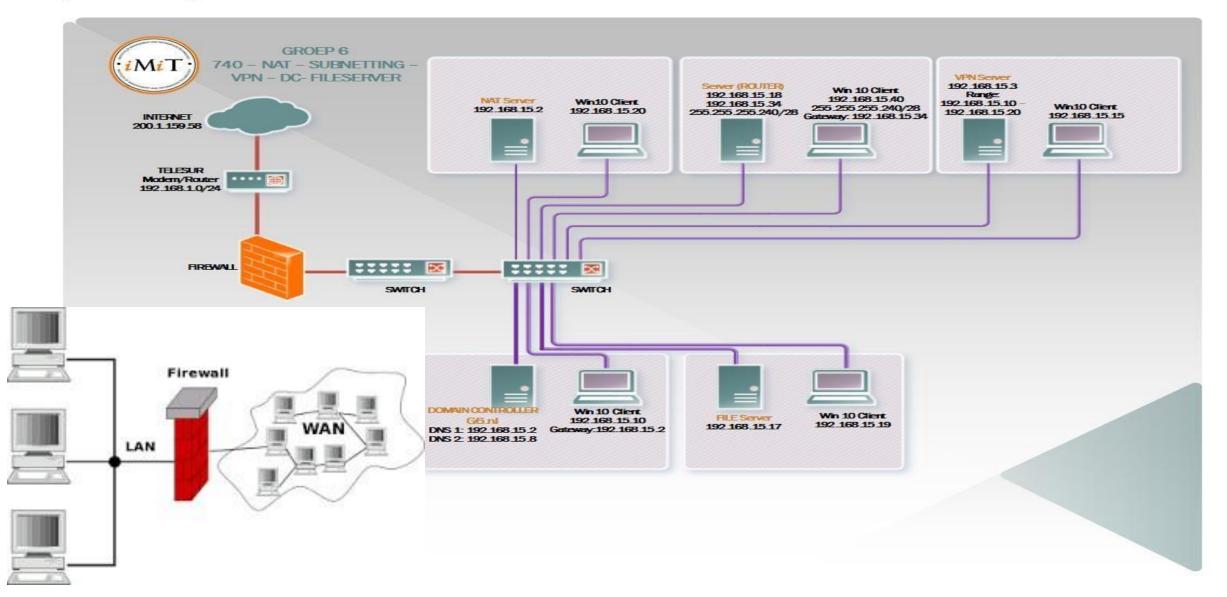

A.G.M. Pijpers MBA Ing. Urwin W. Staphorst MBA Microsoft CERTIFIED Trainer

The certificate program was accredited by the Accreditation Organization of Suriname (NOVA) on June 1, 2017. IMIT was recognized by the Ministerie van Onderwijs Wetenschap en Culture (MINOWC) on June 1, 2017.

NETWORK PLUS

Basic Network Design

Basic Devices

Switches, Routers. Access Points

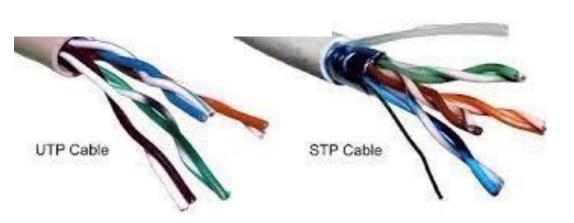

Basic Networking Cables and Tools

- Crimp
- Punch
- Patching
- Cable tester
- Unshielded Twisted Paid / Shielded Twisted Pair

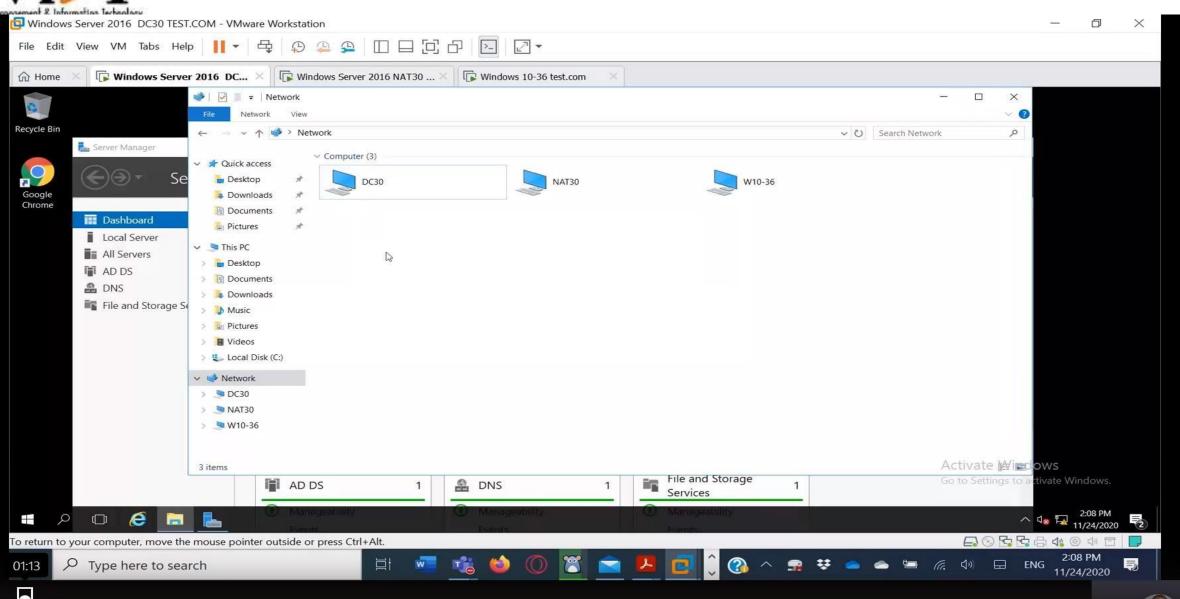

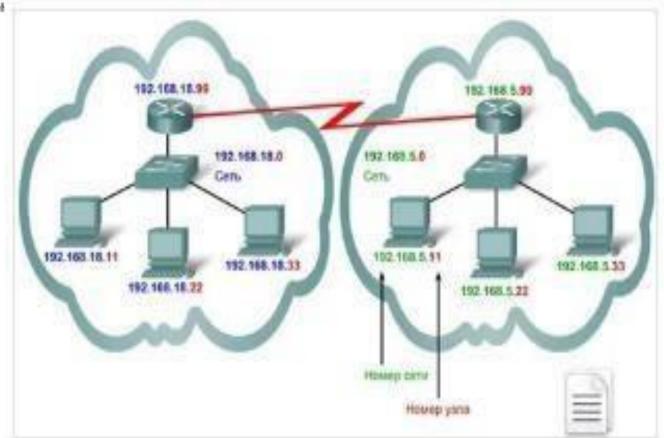

VMWARE VIRTUALIZATION

SESSION - N2

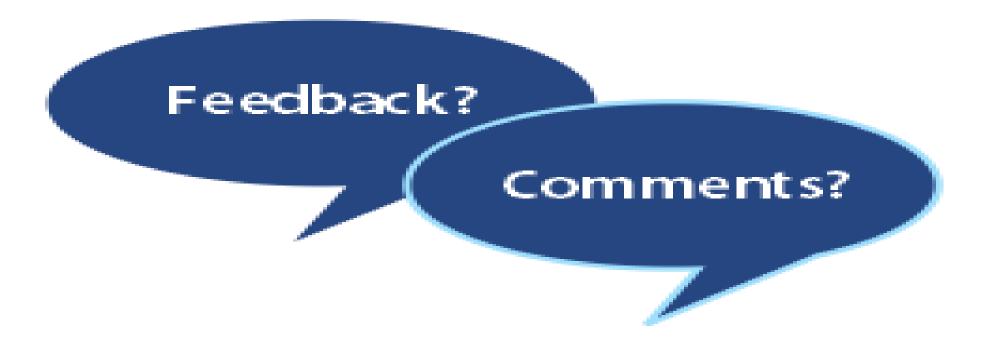

IP: Internet Protocol

IMIT: CLUSTER TRAINING NETWORK+ -CABLING AND WIRELESS NETWORKING
